[Despatch Abstract.]

AGRICULTURE - Fuel oil pump - Consumer pump for H.S.D. Oil - Installation in the premises of the District Agriculture Officer, Mangalore, South Kanara District by Messrs. Caltex (India) Limited Proposal of the Director of Agriculture, Madras Accepted - Orders passed.

33805

Agricultural Department

13 JUL 1956

From
Sri R.M. Sundaram, I.C.S.,
Director of Agriculture,
Chepauk, Madras.5.

To
The Secretary to Government,
Agriculture Department,
Fort St.George, Madras.

5 JUL 1956

SS.3.151/56 dated 23-6-56.

Sir,

Sub:-Fuel Oil Pump - Consumer pump for H.S.D. Oil Installation in the premises of the District Agricultural Officer, Mangalore - permission requested.

I submit that installation of an electrically operated consumer pump within the premises of the District Agricultural Officer at Mangalore for supply of High Speed Diesel oil is found to be necessary to ensure not only quick supplies but also to get pure fuel oil to the fleet of tractors working in that District. so as to minimise the damages that are greatly due to suspended impurities in the oils used on tractors and other machinery. There is always the chance of impurities getting into the fuel oils during the transit from the local depot to the consumers end and it would be advisable therefore to eliminate as far as possible the frequent transit of oil over long distances. There is also the likelihood of wastage due to leakage and evaporation while the oils are taken tnrough containers. The best procedure to obviate the above difficulties is therefore to provide fuel pumps as take off points as near the consumer as possible. The following figure's provide justification for providing a H.S.D. oil pump within the District Agricultural Officer's office compound at Mangalore.

2. The offtake of oils during 1954-55 and 1955-56 are 12,084 gallons and 9,871½ gallons. The target for ploughing for this district for the current year (i.e.)1956-57 covers an area of 1000 acres of virgin land and 500 acres of current fallow and the number of bulldozers and tractors available in the District is 8. The offtake of oils for the current year may therefore equal those of previous years if not exceed them.

3. The District Agricultural Officer, Mangalore has obtained the written consent of the owner of the office building for the installation of H.S.D. Oil pump. M/S. Caltex (India) Ltd., have also inspected the office premises and have offered to instal the underground fuel oil tank. and pump at one corner of the premises. The cost of installation of the pump will be met by the firm and the Department would have to pay only a rupee per month as rental charges for the installations. The expenditure on this will be met under 40.Agriculture Development schemes-1 schemes included in the five year plan 8 Agrl.Engineering IV Tractor cultivation scheme- Maintenance and upkeep charges.

4. I therefore request that the Government may be pleased to permit the Firm M/S.Caltex(India)Ltd., to install the H.S.D. Oil pump in the premises of the District Agrl. Office at Mangalore. The Deputy Director(Engineering) may also be authorised to execute the necessary agreements in this matter.

Sd.B.M.Lakshmipathy
for Director of Agriculture.

[CR 33805/56 AGVI (3)] Sub:- Agri. Fuel oil Pump - Consumer pump for H.S.D. oil installation in the premises of the D.A.O, Mangalore by M/s. Calltex (India) Ltd. - Permission.

f.1cf Read:- From the D.A, Madras Lr no. SSS.15'/56 dt 23.6.56.

The case deals with the proposal from the D.A, Madras for the installation of an electrically operated Consumer pump within the premises of the D.A.O, at Mangalore for supply of High Speed Diesel oil to the fleet of tractors working in S.K dt. The need for providing a H.S.D. oil pump within the D.A.O's office Compound at Mangalore has been explained in para 2 on p1cf.

2. M/S Calltex (India) Ltd is reported to have misplaced the office premises and have offered to instal the underground fuel oil tank and pump at one corner of the premises of the D.A.O, Mangalore. The cost of installation of the pump will be met by the firm and the Agricultural Deptt would have to pay only a rupee per month as rental charges for the installations. The installation of an electrically operated consumer pump within the premises of the D.A.O, at Mangalore is found to be necessary to ensure not only quick

supplies but also to get pure oil to the fleet of tractors working in S. A dt. South Kanara Dt. It may be mentioned ~~that~~ in this connection that similar sanction has been accorded to the D.A for the erection of a petrol Consumer pump in the Tractor workshop, Coimbatore in G.O Ms No 366 Agri (60) 7 14-10-55. ~~In the~~ circumstances and in view of the advantageous of such pump, the proposal of the D.A may be accepted and ~~he may~~ permit the firm M/s Caltex (India) Ltd to install the H.S.D: oil pump in the premises of the D.A.o at Mangalore and to authorise the Hd Qrs Dy.D.A, Madras to execute the agreement on behalf of the Govt. The D.A may also be permitted to make payment to the oil Company a nominal rental of Re 1/- p.m per pump.

p 5 of (A)
